

A free web-based search tool that provides quick access to the Urgent and Emergency Care Directory of Services (DoS) and social care information from the NHS website. Enabling healthcare professionals to signpost patients to the most appropriate services.

## Key Features

Up to date, real-time information, including non-public phone numbers and referral instructions

Find a specific service directly using 'look up a service'

A user-centred design that works on any device, including smartphones

Access maps with route and transport options so you can give accurate directions

## Key Benefits

- Shift to lower acuity services
- Maximise time available for patient care
- Have more confidence in referral success
- Improve patient experience
- Clinically reviewed and assured

Access Service Finder<sup>BETA</sup> at [finder.directoryofservices.nhs.uk](https://finder.directoryofservices.nhs.uk)

Log in with your existing DoS account credentials, or request a new account via the link on the homepage.
