

MORE! [Hypertension workshops](#)

Our new *Hypertension online workshop* commenced in December 2021. After fully booking last semester, more online workshops are available from April. The workshop aims to enable you to interpret and apply clinical guidance to support people with hypertension. Consider how to optimise their treatment and use a shared decision-making approach to empower people with hypertension to self-manage their condition. To book a place visit [Hypertension - online : CPPE](#)

Additional learning on the topic of Hypertension can be accessed on the CPPE Hypertension Gateway Page: <https://www.cppe.ac.uk/gateway/hyper>

NEW! [Controlled drugs in chronic pain: supporting patients with safe and effective use e-learning](#)

On the 17th January 2022 CPPE launched the *Controlled drugs in Chronic pain: supporting patients with safe and effective use* e-learning. The two and a half hour programme is aims to support all pharmacy professionals to develop the knowledge, skills and behaviours to support patients to use prescribed controlled drugs safely and effectively, with a focus on controlled drugs used in chronic pain. [Pharmacy technicians: enhancing your professional practice e-course launch](#)

CPPE is delighted to announce the launch of an exciting new programme of learning for pharmacy technicians in England. The *Pharmacy technicians: enhancing your professional practice* e-course is the first component in a series of learning opportunities for pharmacy technicians, with additional training opportunities to be announced soon. The e-course is free to pharmacy technicians working in England, who are registered with CPPE. You can find out how to register with CPPE for free, [here](#).

[Leading for change](#)

The CPPE *Leading for change* programme is now open to pharmacy professionals from all sectors including community pharmacy, hospital, primary care and the prison service. This fully funded leadership programme is open to anyone who has responsibility for leading a team or leading services within their organisation. *Leading for Change* comprises four online modules, delivered over six months each supported by a compulsory online workshop and optional networking Zoom Room. To successfully complete the course you need to attend all four workshops, contribute to the discussion forums and complete a written assignment to demonstrate how you have put your learning from the programme into practice. For more information and to apply visit [Leading for change : CPPE](#)

More workshop dates added to our *Shared decision making* programme

Additional paired dates for workshops on our *Shared decision making* programme have been released. Shared decision making is linked to improved outcomes for patients and puts them at the centre of their own care, recognising them as equal partners in their own healthcare decisions. Pharmacy professionals are considered as key providers of personalised care within primary care.

Our *Shared decision making* programme is open to all NHS pharmacy professionals in a patient-facing role in England, including those carrying out remote consultations via phone or video. For more information about the *Shared decision making* programme, and to secure one of the newly available places, visit: www.cppe.ac.uk/career/sdm.

Pharmacy quality scheme

To support you with Pharmacy Quality Scheme 2021/2022, CPPE has created a new section of the website to aid community pharmacy professionals to navigate the learning programmes listed in this year's scheme.
