

**SERVICE SUMMARY**  
Emergency Hormonal Contraception  
Warrington

**Summary**

- To increase the availability of Emergency Hormonal Contraception and sexual health to those who require it
- To raise awareness of the risks associated with unprotected sexual intercourse (UPSI)
- To provide information on the full range of contraception options available and enable swift and seamless transition into community sexual health services:
  - Warrington centre for Sexual Health 01925 644202
  - Client's GP
- To be vigilant with regard to safeguarding issues and to act immediately if there are any concerns

**How to  
Deliver**

The pharmacist is to perform a consultation with the patient in private to assess the suitability of emergency contraception, as well as providing information about what to do in the long term, such as considering options for ongoing contraception available. Offer patient POP. The pharmacist should also advise on the risks of sexually transmitted infections (STIs). Offer chlamydia screening service to patient, the pharmacist may also provide additional advice on safe sex and other matters relating to sexual behaviour.

**How to  
Qualify/DoC**

CPPE Certificates for these two courses must be provided to Public Health prior to accreditation.

- CPPE Emergency Contraception e-learning programme
- CPPE Safeguarding children and vulnerable adults e-learning programme

It is strongly recommended that pharmacists complete these additional courses.

- CPPE Contraception - open learning
- Sexual health in pharmacies
- Dealing with difficult discussions - open learning
