THE IMPORTANCE OF FULFILLING RESPONSIBLE PHARMACIST DUTIES – EXPECTATIONS & RESPONSIBILITIES

As pharmacy has evolved, there are now many more things to consider beyond the basic dispensing and supply of prescriptions.

Most, if not all, pharmacies now provide clinical services, both national and local, which commissioners expect to be delivered across the full range of a pharmacies opening hours. Some of these are essential services, which **MUST** be completed by the pharmacist on duty, eg the Discharge Medicines Service.

Patients also expect that when they attend a pharmacy to receive a service, they will not be turned away.

You should familiarise yourself with the services on offer prior to accepting a shift as the expectation has to be that where a pharmacist is on duty, they will do their utmost to provide the contracted services.

With this in mind, we would ask that you have Declarations of Competence (DoC) in place for all of the services on offer. CPPE (www.cppe.ac.uk) list the suggested learnings and provide the forms which can be completed online.

An overarching DoC can be quickly updated to include any local service specifications, eg for a minor ailments service with a PGD, and all of the training and accreditation requirements for the local services can be found in this guide, and also on our website (links provided within each service section).

It is very easy for the public and the commissioners to lose faith in us as a service provider and, where referrals fall down, we undergo significant reputational damage as a profession. This can impact the future sustainability of Community Pharmacy and so it is vital that we play our part in the bigger overall NHS picture. More services will continue to come our way and will need to be adopted into your daily practice to become business as usual.

PHARMOUTCOMES

Most locally commissioned service claims are recorded on PharmOutcomes and every pharmacy in Cheshire West & Chester has unique log-in details. Things to note:

- The administrator using this default log-in can set up individual logins for staff members;
- If you have been provided with different personal logins for a number of different pharmacies, ask the PharmOutcomes Helpdesk about setting up “Switching Identities”; this will allow you to use a single username and password but then select the appropriate pharmacy from a list.

To record on PharmOutcomes:

- Go to www.pharmoutcomes.org.uk
- Log in (or select “Help” if needed)
 - Any messages are displayed on the Home Page
- Select the “Services” tab
- Accredited services for the pharmacy are listed on the left-hand side in orange
 - Click on the appropriate service to create a new record
- Recent Provisions are listed in the centre/right in Blue
 - These can be re-opened/edited by clicking on them
 - Editing information will over-write existing information
 - Editing after status has changed to “claimed” will not change payment details
- Outstanding Referrals are shown above Recent Provisions
 - Click on the Referral for information about the patient/reason for referral
 - Completing the action associated with the referral will move the referral from the top of the screen to the “Recent Provisions” section

The LPC has developed a getting started with PharmOutcomes guide that staff new to PharmOutcomes may find useful and can be accessed from the LPC website at <https://cpcw.org.uk/resources/pharmoutcomes/>
